Desktop: Report packages may be ordered in the table above at the price shown.

Internet: Reports may be purchased in any number. Let's say you wanted 70 reports. We would charge the \$11.90 per report. Reports never expire and may be moved from account to account. One report credit is used per report.

Clients may have multiple accounts. We can set up different accounts with different email address, benchmark files and Authorization codes so each department/branch receives only their own reports or you may set up a central email account for all departments to share reports. Reports may be split between accounts or can be pooled with a master/main account.
